17.30 Microfilming or Optical Disk Storage of Department Records.

Departments may keep and preserve public records through the use of microfilm or optical disk storage providing that the applicable standards established in Wis. Stat. §§ 16.61(7) and 16.612 respectively are met. Departments should consider factors such as retention periods and estimated costs and benefits of converting records between different media in deciding which records to microfilm or store on optical disk. After verification paper records converted to either microfilm or optical disk storage should be destroyed. The retention periods identified in this ordinance apply to records in any media.
