

FOR IMMEDIATE RELEASE

March 24, 2020

Manitowoc County provides a number of essential services to the residents of Manitowoc County every day, including during this COVID19 pandemic. Under Governor Ever's new "Safer at Home" order released today, **Manitowoc County Departments are exempt as an essential service and will remain open for business.** However, we also take seriously social distancing and the need to alter the way we do business in order to prevent the spread of COVID19 and protect our healthcare system. Some of these measures include **closing some public lobbies or asking residents to conduct business via phone, email, mail, or a drop box.**

Therefore, **we are asking residents to please call ahead before attempting to do business with a County Department.** They will instruct you on how your business can be conducted depending on the current situation. The following is a list of commonly used phone numbers for County Departments, for a full list visit the County website at www.manitowoccounty.org:
